Donn,  
Gary notified our partner agencies. I guess it would not hurt to notify the CAG members. Please use the notification that Austin Vela sent. CAS

"The PRPs are scheduled to conduct the assessment and repair beginning on March 9, 2016, with completion on March 11, 2016, weather and tide permitting. The Potentially Responsible Parties conducted a visual inspection of the cap on February 24 and found a couple of areas where geotextile fabric did not have armored rock cover. The PRPs notified EPA on March 4 and we directed them to place additional rock over these areas and approved a plan to conduct this work under EPA oversight."

Is it necessary to notify the CAG members also, if Gary has notified our partner agencies?

Thanks,

---

FYI

Per David's request, I just shared this with our congressional staffers:

The PRPs are scheduled to conduct the assessment and repair beginning on March 9, 2016, with completion on March 11, 2016, weather and tide permitting. The Potentially Responsible Parties conducted a visual inspection of the cap on February 24 and found a couple of areas where geotextile fabric did not have armored rock cover. The PRPs notified EPA on March 4 and we directed them to place additional rock over these areas and approved a plan to conduct this work under EPA oversight.

Thanks.
